

9TH ANNUAL DIAMOND CLASSIC CATCH & RELEASE STURGEON DERBY

- Procedure to Follow to Enter a Fish for the Derby Drawing-

- **IMMEDIATELY** upon hooking a sturgeon call a weigh master on **VHF Channel 68** or the weigh master's manager by cell phone, Captain Jeremy Kangas at **(925) 286-3509** or **(925) 787-4307**.
- That way we may have a weigh-in vessel dispatched to your location to witness landing and measurement of fish **AS QUICKLY AS POSSIBLE**. Only legal slot fish that have been released can be entered in the Derby drawing.
- It's better to call for a weigh-in vessel even if you're not sure of the fish's size. Our goal is to measure the fish in the water and to do an "in-the-water" release.
- If the sturgeon is outside of the legal slot size of 40"–60" (forked length) the fish must be released and it will not be entered in to Derby drawing. Only legal slot sized sturgeon that have been released can be entered in the Derby prize drawing.

We are trying to prevent any damage to any Sturgeon that is going to be released. Please be careful! THANK YOU !
